All who work with children or youth have completed Safe Ministry Training and all clergy, staff and volunteers are subject to strict employment measures such as working with children checks. The Cathedral is committed to being a place where survivors of abuse experience care and support.

Message from the Samaritans: To embrace the theme of *Learn and Grow* for Mental Health Month, we have put together eight facts about Mental Health that you may not know:

- 1) **45% of the Australian population** will experience a mental illness disorder at some stage.
 - 2) **Many kinds of treatment** options are available and not all involve medication.
 - 3) **Most common mental illnesses** are depression, anxiety and substance use disorders.
 - 4) During a 1 year period, **anxiety disorders** will affect 14% of the population and **depression** 6%.
 - 5) Most people with a mental illness are **treated in the community** with most consulting their GPs.
 - 6) **Suicide** continues to be the leading cause of death for Australians aged 15-44 years. It claims **eight lives every day - more than road accidents or cancer.**
 - 7) Many violent people have no history of mental disorder and **90% of people with mental illness have no history of violence.**
 - 8) Many people experiencing mental illness delay seeking help because they are frightened by the illness and fear stigma and discrimination. **Reducing the stigma** will encourage more people to seek help early.
- For further information see the Samaritan website or phone 1300 656 336.*

Missions ABM Our Project for October: The Solomon Islands - Disaster Risk Reduction and Climate Change Program. The Solomon Islands are increasingly vulnerable to the effects of climate change and natural disasters. In 2015 alone two devastating cyclones affected various islands within the archipelago causing widespread damage and loss of life. ABM is committed to supporting the communities for these increasingly frequent disasters. This involves the implementation of a Disaster Risk Reduction program. King tides, rising water levels and salt intrusion into water supply and crops is causing havoc in the region; all effects which are classed as contributing to a “slow onset disaster”. *[Envelopes are at the rear of the Church]*
